What Everard's BO say about us

Ray Cooper **Everards Business Owner**

What Everard's BO say about us

Camille Oliver

Everards Business Owner

"I was introduced to Nationwide Energy through Everards when we took over a newly acquired property so they could see if there might be any problems.

Through their support they helped us organise a gas supply for the property, get a faulty electric meter fixed and efficiently brokered a fair price for our gas and electric supplies.

Receiving trusted consistent, accessible, expert service with a direct dial named contact has meant a world of difference. Toria has been absolutely fantastic and enabled me to concentrate on my business without the fuss. Personal service at it's best!"

Q&A

Thank you for watching!
